

24 January 1952

MEMORANDUM FOR: 25X1A9a
Office of Special Assistant for Program Coordination

SUBJECT: PSB Inventory of Resources Presently Available for
Psychological Operations' Planning

Two copies of the attached have been received in OPC. One copy is furnished herewith for your use and files. You will recall that this is the famous Panel B, and so much interdepartmental differences of opinion as to its value developed, plus the fear that as a formally approved document it would represent doctrine, that it was finally decided to handle it as a staff referred check list for planners.
